

## Quality Policy

**Power Infra Projects Contracting LLC** will provide its services to the satisfaction of its customers by complying with the Contract Requirements and Specifications. The Company will conduct its business with a strong focus for the needs of the Customer and continual improvement to achieve reputation for Quality and Reliability of its products and services.

We will achieve this by:

- Identifying the needs and expectations of the Customer through an effective Contract Review process.
- Complying with the specifications, standards, regulatory & legislative requirements of the Country and procedures of the Company during the project realization process, with emphasis on defect prevention and safety.
- Developing reliable supplier network for efficient sourcing of materials.
- Continuously improving the business processes to render it efficient.
- Providing safe work environment and adequate facilities.
- Training employees to comply with the procedures and practices to enable them to work for continual improvement.
